Dear Sir/Madam,

Service Providers for
Electronic Submissions of Trade Documents from 1 January 2010

I would like to inform you that Brio Electronic Commerce Limited (Brio), Global e-Trading Services Limited (Global) and Tradelink Electronic Commerce Limited (Tradelink) (in alphabetical order) have been appointed by the Government to provide services for the electronic submission of the commonly used trade documents from 1 January 2010.

Currently, the services are provided by Global and Tradelink. We believe that the appointment of a third service provider, namely Brio, will give the trading community a wider choice and bring added room for healthy competition in the market.

All the service providers will provide services for trade declarations, dutiable commodities permits and cargo manifests for air, water and rail modes of transportation. Some of them will also provide services for textile-related trade documents, such as certificates of origin and production notifications. In addition, the service providers are encouraged to provide value-added services to help companies streamlining their business operations.

For details of the services to be provided by the service providers, please call their hotlines or visit their websites as follows :-

Yours sincerely,
