第27屆世界海關組織亞太區首腦會議

香港海關以世界海關組織亞太區副主席的身分，於五月十八日至二十日舉辦第27屆世界海關組織亞太區首腦會議。此會議是亞太地區年度最高級別會議，匯聚約120位亞太地區的海關首長、高級官員及世界海關組織地區機構代表參與，世界海關組織秘書長Ian Saunders亦應邀出席。

海關關長陳子達在會議開幕式上致辭時表示，香港海關在過去兩年作為亞太區副主席，一直秉持協作與合作的核心理念，他期望各成員繼續團結協作，共同促進區域繁榮、可持續發展及保持緊密聯繫。其後，世界海關組織秘書長Ian Saunders亦就世界海關組織的未來發展分享了寶貴意見。

是次會議取得了豐碩的成果，與會各方共同通過多項關鍵區域決策，包括確認來屆於不同委員會的亞太區代表席位，以及通過新一屆地區發展策略計劃。香港海關亦於會議上獲亞太區成員一致支持，續任世界海關組織亞太區副主席兩年（二〇二六至二〇二八年度）。

Reminder from Customs Detective: Beware of prepaid consumption risks

Customs Detective, a series of promotional videos on smart consumption produced by Hong Kong Customs, recently featured officers from the Intellectual Property Investigation Bureau to talk about the common prepaid consumption traps found in daily life.

Officers pointed out that while many promotions in the market boast the idea of "buy more, save more", consumers who blindly make substantial upfront payments may bear the risk of being unable to recover their losses once the trader closes down. Officers also reminded the public to patronise reputable traders when shopping, and carefully evaluate their actual needs before making large prepayments, so as not to lose big for the sake of small gains.

Successful Launch of First Batch of TSW Phase 3 Services

■ Customs officers provide on-site assistance to cross-boundary drivers at land boundary control points, ensuring a smooth transition of the system.

The first batch of Trade Single Window (TSW) Phase 3 services was launched on 1 May, replacing the long-standing ROCARS for the submission of advance road cargo information by the trade.

To facilitate the seamless transition of the trade to the new services, Hong Kong Customs has stepped up support measures, including deploying additional staff at land boundary control points to provide on-site assistance to cross-boundary truck drivers, and enhancing hotline services.

The second and third batches of Phase 3 services will be launched from mid-2027. Hong Kong Customs will continue to maintain close liaison with the trade to proactively promote the TSW services.

Air-Land Fresh Lane Extends to Macao

The Air-Land Fresh Lane (The Fresh Lane) has reached another milestone. A shipment of live lobsters weighing 986 kilograms arrived in Hong Kong on 22 April by air from Canada, and was immediately transhipped by a cross-border refrigerated truck for direct delivery to Macao via the Hong Kong-Zhuhai-Macao Bridge (HZMB) under the "Through Truck Transportation" model with the application of the Guangdong-Hong Kong-Macao Three-Places-One-Lock Scheme (Hong Kong-Macao Section). This marks the first consignment of overseas fresh products delivered to Macao via Hong Kong utilising the Fresh Lane, realising a seamless "Overseas-Hong Kong-Macao" one-stop delivery.

The new arrangement has significantly shortened clearance time, reduced losses of fresh aquatic products, and helped preserve the freshness of the ingredients.

Hong Kong Customs will continue to maintain close liaison with the trade and support the development of Hong Kong's commodities market, thereby enhancing the city's overall competitiveness.

Hong Kong Customs, in the capacity of the World Customs Organization (WCO) Vice-Chairperson for the Asia/Pacific (A/P) Region (APVC), hosted the 27th WCO A/P Regional Heads of Customs Administrations Conference between 18 and 20 May. This is the highest-level annual conference held in the A/P region, and has gathered about 120 heads of Customs and senior officials from the region, alongside delegates from the WCO's regional entities. The Secretary General of the WCO, Mr Ian Saunders, was also in attendance.

The conference started with a welcoming speech by the Commissioner of Customs and Excise, Mr Chan Tsz-tat. He noted that over the past two years, Hong Kong Customs, in its capacity as the APVC, has upheld the core values of collaboration and co-operation. He encouraged all members to carry this momentum forward to ensure prosperity, sustainable development and close connections in the region. The Secretary General of the WCO, Mr Ian Saunders, also addressed the conference and shared valuable insights on the WCO's future developments.

The conference yielded fruitful outcomes, including the endorsement of significant regional decisions, such as the confirmation of the next-term regional representative positions to different WCO Committees and the adoption of the new Regional Strategic Plan. Hong Kong Customs also received unanimous support from A/P members to extend its tenure as APVC for another two years (2026-28).

Another key milestone achieved in the event was the signing of a Memorandum of Understanding between Hong Kong Customs and Pakistan Customs, formalising Pakistan Customs' participation in the project "ValidAP". The "ValidAP" initiative, led by Hong Kong Customs in its capacity as the APVC, is an innovative blockchain-based platform for validating digital documents, designed to accelerate logistics and drive economic development across the A/P region.

The conference also concludes the landmark first tenure of Hong Kong Customs as APVC. Over the past two years, Hong Kong Customs has proactively organised 18 impactful events, fostering knowledge sharing, co-operation, and cohesion among A/P members and underscoring its commitment to regional development.
