On 4 September 2023, Hong Kong Customs organized the "Seminar on Customs Trade Facilitation Schemes" to introduce the trade facilitation schemes implemented by the Department. These schemes included the HK AEO Programme, Free Trade Agreement Transshipment Facilitation Scheme (FTA Scheme), Single E-lock Scheme (SELS), Alternative Smoking Product Transshipment Control Scheme (ATCS), and the pilot scheme for developing a dedicated express route for air-land fresh and live products. The seminar aims to provide attendants with an overview of these schemes and assist them in participating in the ones most suitable for their business needs.

Representatives of China Resources Enterprise, a company with diverse business interests such as logistics, aquatic products, retail, coffee and technology, attended the seminar. During the seminar, officers from the Office of Trade Relations and Public Communication engaged in in-depth discussions with the company representatives and provided expert opinions on how the various benefits under the HK AEO Programme, including reduced Customs inspection and prioritized Customs clearance can enhance cargo flow efficiency and improve company competitiveness.
